Module 2: Leadership Survey

The questions contained in this survey relate to the information from the textbook, however, this survey is **not** part of the Vantage system and is to be completed as a survey in Canvas.

Be sure to read Chapters 2, 3, & 4 and complete the activities in Vantage prior to completing this survey.

Each question should be addressed with a minimum of a one-paragraph response.

*Please note that once you submit the assessment you will not be able to go back and edit it. However, you will be able to resubmit it if needed.

**It is important that you submit your assignment and then close the internet browser otherwise the assignment may not properly link to the grade book (even though it has been completed). It will appear as if you are still completing the assignment.

This attempt took 52 minutes.

Question 1

Based on the scores you received on the Leadership Traits Questionnaire, what are your strongest leadership traits? What are your weakest traits? Discuss.

Your Answer:

According to my results from the Leadership Traits Questionnaire I seem to be a very strong, perspective, and determined leader!! I want to get the job done correctly, completely, and on time. Although I'm not as strong in my self confidence, that I believe can be worked on and with more practice and exposure, I am sure to believe and trust in myself more! the questionnaire also shows that I have a strong trustworthy trait. I can believe this as I try really hard to never let anyone down and am always dependable.

Question 2

Of the three styles of leadership (authoritarian, democratic, and laissez-faire), what style comes easiest for you? Describe how people respond to you when you use this style.

Your Answer:

The leadership style that comes to me easiest is definitely authoritarian! I definitely like to be in control and take charge. I feel this way, I can assure that projects and goals are done correctly and timely. Although I like to take control and influence others, I also like to explain my reasonings and concepts so that everyone involved knows exactly where I am coming from and why I am taking the actions that I am.

Question 3

Have there been times when your style has conflicted with others in your group? If so, describe how you adjusted or responded to the differences.

Your Answer:

Yes, there have been many times when my style of leadership has conflicted with others in groups I was working in or with. Many of those that I had conflict with had authority issues or didn't like taking suggestions or direction from others. They were used to being the one to give direction. I help resolve these issues by speaking with them, asking what they would have done differently, and then explaining the reasoning behind my decisions. From there, possibly working out a compromise or solution.

Question 4

What is your personal philosophy of leadership? Why? What are your beliefs about human behavior?

Your Answer:

My personal philosophy regarding leadership is that everyone looks for and thrives with some type of leadership. Without leadership, things will be chaotic and people will be confused on their role and the goal of

the group. There needs to be a leader that points people in the right direction, maintaining structure. Human behavior is can mirror many animalistic behaviors such as herd and pack mentality. They look to the leader to guide them to their food and water, ultimately helping them survive. Very few humans and animals make it as loners in the world.

Question 5

How would you describe your own style in relation to task and relationship orientations? What are your strengths and weaknesses?

Your Answer:

In relation to task and relation ship orientation, I find myself definitely falling in the task oriented category. I fall on the left end of the continuum. Although I like people and to socialize, when it comes to business, projects, and my role in them as a leader, I stay focused on the task at hand. I like to "keep my eye on the prize" instead of how people relate to each other and their well being. One cannot be the leader/manager/boss and be everyone's best friend as well.
